Description: LucyPet allows pet owners to keep track of their pet's regular activities all in one place. You can keep track of multiple pets' information and also record all of their activities including medication events, walks, feedings, bathroom events etc. You can set notifications to remind you when you need to do something for your pet, like give them their medication or take them for a walk. You can also share a specific event if you need to keep note of it somewhere else, or to text it to your co-pet owner.
